Subject: Micro\$oft Monopoly

I think that Microsoft has gotten away with something. The courts found them to be an illegal monopoly. I think it is a shame that they stand to benefit from their illegal actions. I am asking you to pursue a stronger penalty. They continue to claim publicly that they did nothing wrong, even after the courts findings. Now as part of the settlement they are going to be allowed to "donate" more of their technology to schools. This will further the Microsoft cause. It will increase their exposure and the publics reliance on their products. I think it's a crime. DON'T LET THEM GET AWAY WITH THIS!
